Exhibit A-2

**FROM ORIGINAL MOTION FOR SUMMARY
JUDGMENT (Exhibit A-2)**

TERMS AND CONDITIONS OF SALE

1. GENERAL TERMS. Unless otherwise specified on the face of this document, this Quotation/Order ("Agreement") will remain valid only if accepted by Customer no later than 60 days from date of submission to Customer.

2. TITLE AND RISK OF LOSS. Unless otherwise specified on the face of this document, title and risk of loss to the Equipment purchased under this Agreement will pass to Customer: (a) if Toshiba is to provide installation upon Toshiba's completion of installation, or (b) if Toshiba will not provide installation, upon delivery by Toshiba to a common carrier at Toshiba's facility from which the Equipment is shipped.

3. TERMS OF PAYMENT. Unless otherwise specified on the face of this document, prices stated are F.O.B. Tustin, California or other facilities of Toshiba in the U.S.A. from which the Equipment may be shipped, freight prepaid and charged. All taxes which are levied on or payable by Toshiba in connection with the sale, use, or possession of the Equipment to or by the Customer (excluding income taxes), and transportation charges (including rigging) for the shipment to installation site will be paid by the Customer in addition to the quoted price. Terms of the payment for Therapy, C.T., Nuclear, and X-Ray will be cash - 10% upon execution of this Agreement, 70% upon delivery, balance due upon completion of installation and/or availability for first use, whichever is earlier. Terms of payment for Ultrasound and Mobil X-Ray will be cash - 10% upon execution of this Agreement, 90% NET upon completion of installation and/or availability for first use, whichever is earlier. All invoices paid after due date will be assessed a late payment charge of the lesser of 1 1/2% per month or the maximum rate permitted by law.

4. DELAYS. With the exception of Ultrasound and Mobile X-Ray products, if Customer changes the scheduled delivery date specified on the face of this document ("Scheduled Delivery Date") during the period of 120 days preceding such date, Customer will nevertheless pay the 70% installment of the purchase price payable upon delivery, on the Scheduled Delivery Date as if delivery had been made on such date. In addition, Customer will pay all extra costs incurred by Toshiba as a result of such delay;

day will be cash - 10% upon execution, 10% upon delivery, 10% upon completion of installation and/or availability for first use, whichever is earlier. Terms of payment for Ultrasound and Mobil X-Ray will be cash - 10% upon execution of this Agreement, 90% NET upon completion of installation and/or availability for first use, whichever is earlier. All invoices paid after due date will be assessed a late payment charge of the lesser of 1 1/2% per month or the maximum rate permitted by law.

4. DELAYS. With the exception of Ultrasound and Mobile X-Ray products, if Customer changes the scheduled delivery date specified on the face of this document ("Scheduled Delivery Date") during the period of 120 days preceding such date, Customer will nevertheless pay the 70% installment of the purchase price payable upon delivery, on the Scheduled Delivery Date as if delivery had been made on such date. In addition, Customer will pay all extra costs incurred by Toshiba as a result of such delay, including, without limitation, storage and transportation. Storage fees will be charged at commercially comparable rates for storage on Toshiba's site. If delivery is delayed by 12 months or more from the Scheduled Delivery Date, through no fault of Toshiba, the price set forth in this Agreement may be increased by Toshiba to a level equal to the higher of the prevailing price in effect at the time of the revised delivery date or 1 percent (1%) per month (or portion of it) for each month (or portion of it) that delivery is delayed. However, such 12-month period will be tolled for any days during which the delay in delivery is caused solely by Toshiba.

5. ACCEPTANCE BY TOSHIBA. This Agreement will not be binding on Toshiba unless and until it is accepted by Toshiba as evidenced by the signature of an authorized representative of Toshiba on the face of this document. Toshiba's acceptance is expressly made conditional upon Customer's assent to the terms and conditions contained in this document. All different or additional terms and conditions which may be contained in Customer's bid documents, purchase order or any other documents furnished by Customer are hereby objected to and deemed material unless accepted in writing by an authorized representative of Toshiba. Toshiba will give Customer a fully executed copy of this Agreement upon acceptance by Toshiba.

6. EQUIPMENT INSTALLATION. Toshiba will install all Equipment purchased under this Agreement and connect them to existing power and/or plumbing lines at no additional charge to Customer, except that Customer agrees to pay overtime premium for any labor performed beyond Toshiba's normal working hours. Customer will be responsible for electrical wiring, plumbing, carpentry, plastering, printing, or all other site preparation required prior to installation and connection of the Equipment by Toshiba. Customer will provide space at the installation site for the safe storage of Toshiba's tools, test equipment and other materials used for installation at no charge to Toshiba. Customer shall, at its cost, obtain all permits and licenses required by governmental authorities in connection with the installation and operation of the Equipment. In the event delivery and/or installation of any part of the Equipment is delayed or interrupted because of strike or other labor dispute involving trade unions having jurisdiction over Customer's premises, Customer agrees to negotiate with such trade unions and arrange for the timely completion of such delivery and/or installation. Customer will reimburse Toshiba for any expenses incurred as a result of such labor disputes. The Equipment must

6. EQUIPMENT INSTALLATION. Toshiba will install all Equipment purchased under this Agreement and connect them to existing power and/or plumbing lines at no additional charge to Customer, except that Customer agrees to pay overtime premium for any labor performed beyond Toshiba's normal working hours. Customer will be responsible for electrical wiring, plumbing, carpentry, plastering, painting, or all other site preparation required prior to installation and connection of the Equipment by Toshiba. Customer will provide space at the installation site for the safe storage of Toshiba's tools, test equipment and other materials used for installation at no charge to Toshiba. Customer shall, at its cost, obtain all permits and licenses required by governmental authorities in connection with the installation and operation of the Equipment. In the event delivery and/or installation of any part of the Equipment is delayed or interrupted because of strike or other labor dispute involving trade unions having jurisdiction over Customer's premises, Customer agrees to negotiate with such trade unions and arrange for the timely completion of such delivery and/or installation. Customer will reimburse Toshiba for any expense incurred as a result of any such labor dispute. The Equipment may contain certain components which may have been remanufactured. However, such components will meet the manufacturer's specifications for new components as of the date of completion of installation.

7. EQUIPMENT OPERATION AND INDEMNITY. Customer agrees that all Equipment purchased under this Agreement will be operated exclusively by duly qualified technicians and/or medical doctors in a safe and reasonable manner in accordance with Toshiba's written instructions, applicable laws and regulations, and for the purposes for which such Equipment was intended. Customer agrees to defend, indemnify and hold Toshiba and Toshiba's officers, directors and employees harmless from and against all claims, demands, lawsuits, liabilities, judgments, and costs (including reasonable attorney's fees, expert fees, and other litigation costs) arising out of or in connection with the operation of the Equipment by Customer, unless caused by Toshiba's sole negligence.

8. LIMITED WARRANTY AND REMEDY. For the warranty period described below by product, Toshiba, as its only obligation, will replace or repair, at Toshiba's option and without charge to Customer during Toshiba's normal working hours (if Customer requests warranty service outside such hours, Customer will pay overtime premium for labor), any component of the Equipment determined by Toshiba to be defective in materials or workmanship, provided such defect is reported to Toshiba within the warranty period. Toshiba's warranty period is as follows: (a) X-Ray and Therapy - 6 months from the date of completion of installation; (b) Ultrasound, C.T., Nuclear, MRI - 1 year from date of completion of installation; (c) Probes - 12 months from date of completion of installation. Toshiba does not warrant that operation of the Equipment will be uninterrupted. Components not manufactured by Toshiba, including but not limited to X-Ray tubes, monitors, glassware, VTR/S, cameras, computer equipment, and software will be furnished subject only to the manufacturer's warranty, if any, and without any warranty whatsoever by Toshiba. During the warranty period, Toshiba will furnish free of charge any upgrades, including software required to correct any defect in the Equipment or as required under applicable laws.

13. ATTORNEY'S FEE. Case 5:03-cv-03020-RDB

9. LIMITATION ON LIABILITY. TOSHIBA WILL NOT UNDER ANY CIRCUMSTANCES BE LIABLE FOR CONSEQUENTIAL, SPECIAL, INCIDENTAL, OR EXEMPLARY DAMAGES OR ECONOMIC LOSS ARISING OUT OF OR RELATED TO THE TRANSACTIONS CONTEMPLATED IN THIS AGREEMENT, EVEN IF TOSHIBA IS APPRISED OF THE LIKELIHOOD OF SUCH DAMAGES OCCURRING. IN NO EVENT WILL TOSHIBA'S LIABILITY TO CUSTOMER (WHETHER BASED ON AN ACTION OR CLAIM IN CONTRACT, TORT, INCLUDING NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE) ARISING OUT OF OR RELATING TO THE TRANSACTIONS CONTEMPLATED IN THIS AGREEMENT EXCEED THE AGGREGATE AMOUNT ACTUALLY PAID BY CUSTOMER TO TOSHIBA UNDER THIS AGREEMENT.

10. SECURITY INTEREST. Toshiba hereby reserves and Customer grants to Toshiba a security interest pursuant to the Uniform Commercial Code, in and to the Equipment (and all products and proceeds of it) until full payment of the purchase price is received. Customer hereby grants to Toshiba its irrevocable special power of attorney to execute and file financing statements or other documents, on Customer's behalf, for the purpose of protecting the security interest of Toshiba.

Amended prior and use

10. SECURITY INTEREST. Toshiba hereby reserves and Customer grants to Toshiba a security interest pursuant to the Uniform Commercial Code, in and to the Equipment (and all products and proceeds of it) until full payment of the purchase price is received. Customer hereby grants to Toshiba its irrevocable special power of attorney to execute and file financing statements or other documents, on Customer's behalf, for the purpose of protecting the security interest of Toshiba.

11. REMOVAL OF EQUIPMENT. Until Toshiba has received full payment of the purchase price, Customer will not remove any part of the equipment from Customer's premises, nor will Customer sell, lease, transfer or otherwise part with possession of, or permit any lien or encumbrance to be placed on all or any part of the Equipment.

12. REMEDIES OF TOSHIBA. If Customer fails to make any payment when due under this Agreement or under any other agreement between Customer and Toshiba, or becomes insolvent or makes an assignment for the benefit of creditors, or if a petition in Bankruptcy is filed by or against Customer, or if the financial responsibility of Customer becomes impaired or unsatisfactory in Toshiba's judgment, or if Customer otherwise breaches any or the terms and conditions of this Agreement, then Toshiba may, without prior notice or demand, defer shipments, cancel the balance of the order, suspend performance of any obligation (including without limitation, all obligations set forth under Limited Warranty And Remedy above), and/or take immediate possession of the Equipment delivered, until the full purchase price of the Equipment will be paid by Customer or, at Toshiba's discretion, until security satisfactory to Toshiba will be given by Customer. Any costs incurred by Toshiba as a result of suspending performance or repossession or collection will be payable by Customer. Toshiba may sell repossessed Equipment with proceeds to be applied to unpaid balance and expenses incurred in sale, repossession and collection. Customer will pay any remaining deficiency. Toshiba may exercise any other rights available to it by law.

near purchased under this no additional charge to labor performed beyond delivery, plumbing, carpentry, on and connection of the for the safe storage of it no charge to Toshiba. Governmental authorities in delivery and/or installation labor dispute involving negotiate with such trade installation. Customer will route. The Equipment may such components will meet on of installation.

13. ATTORNEY'S FEES AND COSTS. Customer will be liable for all attorneys' fees and litigation costs incurred by Toshiba to enforce any of its rights under this Agreement, including, without limitation, any action or proceeding to recover delinquent accounts.

14. EXCUSED PERFORMANCES. Toshiba will not be liable for nonperformance or delay in performance resulting directly or indirectly from any occurrences beyond Toshiba's control, including without limitation, strikes or other labor troubles, acts of God, war, accidents, fires, floods, other catastrophes, inclement weather, transportation, unavailability of materials and labor, delays caused by Toshiba's suppliers, or laws, regulations, or acts of any governmental agency. The foregoing provision will apply even though such cause may occur after performance of the obligations of Toshiba under this Agreement has been delayed for other causes.

15. SOFTWARE. All rights and interest in any software that may be furnished under this Agreement, and any updates and enhancements to it, will remain the property of Toshiba. Such software is being furnished under this

15. SOFTWARE. All rights and interest in any software that may be furnished under this Agreement, and any updates and enhancements to it, will remain the property of Toshiba. Such software is being furnished to Customer under a non-exclusive license. Customer will not decompile, modify, copy, reproduce, or transcribe the software nor allow third parties to use the same without Toshiba's prior written consent, upon Toshiba's request, Customer will execute an End-User Software License Contract, in a form designated by Toshiba.

16. CANCELLATION. Customer may not cancel the order subject to this Agreement except with Toshiba's prior written consent. In the event of such cancellation, Toshiba will be entitled to recover any and all damages suffered by it caused by the cancellation as allowed by law, but in no event less than an amount equal to twenty percent (20%) of the purchase price for restocking charge.

1 described below by product, and without charge to Customer service outside such hours, payment determined by Toshiba, sent to Toshiba within the Thirtynine - 6 months from the date of completion of

1. Toshiba does not warrant it manufactured by Toshiba,
2. computer equipment, and
3. and without any warranty free of charge any upgrades, required under applicable laws.

17. ASSIGNMENT. Customer may not assign any of its obligations under this Agreement without Toshiba's prior written consent.

18. EXPORT REGULATIONS. This Agreement involves products, and/or technical data that may be controlled under the U.S. Export Administration Regulations and may be subject to the approval of the U.S. Department of Commerce prior to export. Any export or reexport by Customer, directly or indirectly, in contravention of such Regulations is prohibited.

19. ENTIRE AGREEMENT. This Agreement contains the entire agreement between the parties and supersedes all prior or concurrent agreements between the parties, whether oral or written, relating to its subject matter. The provisions of this agreement may not be modified unless in writing and executed by both parties.

COMPLAINT

The Plaintiff, Diagnostic Resource Group, LLC, by its attorney, Jeffrey H. Kreshtool,
 sues the Defendants and states:

1. The Plaintiff, Diagnostic Resource Group, LLC (DRG), is a limited liability

99-00122 AM 9:49 OPV

FILED NOV 01 1999 CLERK OF THE CIRCUIT COURT
 BALTIMORE CITY, MD

hawkins ex. no. 9

ACK-WP

company with its principal office in Baltimore County, Maryland.

2. The Defendant, Toshiba America Medical Systems, Inc. ("TAMS"), is a corporation, with its principal office in Tustin, California. TAMS has no office or resident agent in the State of Maryland.

3. The Defendant, Toshiba America Medical Credit, Inc. ("TAMC"), is a corporation with its principal office in Berwyn, Pennsylvania. TAMC has no office or resident agent in the State of Maryland.

4. At all times relevant hereto TAMS was in the business of manufacturing Magnetic Resonance Imaging Machines ("MRI").

5. At all times relevant hereto TAMC was in the business of leasing MRIs and acted as an agent of TAMS.

COUNT I

BREACH OF CONTRACT

6. On or about September 12, 1997 DRG entered into an agreement with TAMC to lease a Toshiba OPART MRI.

7. The Toshiba OPART MRI was delivered and installed at DRG's office in Baltimore County, Maryland, but never performed satisfactorily.

8. On or about August 17, 1999, TAMS, TAMC and DRG entered into an agreement whereby all parties would release all others from their obligations under the lease.

9. Pursuant to the August 17, 1999 agreement TAMC was to remove the Toshiba OPART from the office of DRG beginning August 18, 1999 at their expense.

10. TAMC has refused to remove the Toshiba OPART despite repeated requests by DRG.

11. DRG has been unable to install a suitable MRI because of TAMC's refusal to remove

the Toshiba OPART.

12. DRG has suffered substantial lost profits and incurred expenses in storing and maintaining the Toshiba OPART.

WHEREFOR, the Plaintiff, Diagnostic Resource Group, LLC, demands judgment against the Defendants, Toshiba America Medical Systems, Inc and Toshiba America Medical Credit , Inc. in the amount of Seven Hundred Fifty Thousand (\$750,000.00) Dollars plus costs.

	37		39
<p>1 to. I said, would you start a scan on another 2 patient?</p> <p>3 A It depends on what the problem with the 4 machine was, what kind of scan it was on. There's a 5 lot of variables that would go into me answering. I 6 don't believe it's a simple yes or no answer.</p> <p>7 Q If you called for service, would you 8 continue to treat or do scans on other patients that 9 day?</p> <p>10 A Depends on if the machine was able to even 11 scan. There's a lot of different reasons why you 12 would call service.</p> <p>13 Q Well, let's assume it's able to kind of 14 scan. Would you continue to perform scans on 15 patients?</p> <p>16 A What do you mean by --</p> <p>17 MR. SPERLING: Objection. I'm going to 18 instruct the witness to answer only to the extent she 19 understands what it means to kind of scan.</p> <p>20 A I don't understand what you're asking.</p> <p>21 Q Why was it you were being paid by Maryland 22 Imaging while you were working for Diagnostic</p>		<p>1 Q Take me through kind of a typical day. A 2 patient appears. Sort of what happens? You know, 3 how was the office physically laid out, and so on, 4 and so forth?</p> <p>5 MR. SPERLING: Bel Air location? 6 MR. SCHUMM: Bel Air Road.</p> <p>7 A When they walked into the office, they were 8 at the reception desk. Paperwork was filled out 9 there as far as information that was needed from 10 them.</p> <p>11 Q And what kind of information would that be?</p> <p>12 A Name, address, phone number, billing 13 information, metal questionnaire.</p> <p>14 MR. SPERLING: Did you say medical 15 questionnaire?</p> <p>16 THE WITNESS: Metal.</p> <p>17 MR. SPERLING: Oh, metal.</p> <p>18 THE WITNESS: Metal.</p> <p>19 BY MR. SCHUMM:</p> <p>20 Q What does that mean?</p> <p>21 A Before anyone can go and have an MRI scan, 22 we need to find out if there's any metal in their</p>	
<p>1 Resource Group?</p> <p>2 A I did some work for MD Imaging.</p> <p>3 Q Were you receiving any paychecks from 4 Diagnostic Resource Group?</p> <p>5 A Yes, sir.</p> <p>6 Q And approximately how much were you being 7 paid by Diagnostic Resource Group at that period of 8 time?</p> <p>9 A You know, I'd have to go back and check my 10 taxes. I have no idea how it was split up.</p> <p>11 Q Do any records exist that show how it was 12 split up other than your taxes?</p> <p>13 A Not any record. I mean they're the records 14 that I would have.</p> <p>15 Q When you say they're the records, what 16 records would it be that you have?</p> <p>17 A My taxes.</p> <p>18 Q Would you have any other records?</p> <p>19 A No, sir.</p> <p>20 Q Do you have any records of Diagnostic 21 Resource Group?</p> <p>22 A No, sir.</p>	38	<p>1 body that will interfere or cause them harm before 2 they would enter into the room.</p> <p>3 Q Okay. And there were two suites there. 4 Which suite did folks enter into, patients 5 enter into, when they first came into the 6 receptionist?</p> <p>7 A I don't know which suite numbers there were 8 there. I think it's 6 and 8 or 8 and 10, something 9 like that. One, if you were looking at the building, 10 it's on the left. I can tell you that.</p> <p>11 Q Okay. Did it appear to all be sort of one 12 big area for an office?</p> <p>13 A Yes.</p> <p>14 Q Just happened to have two suite numbers?</p> <p>15 A Yes. Yes.</p> <p>16 Q All one big area?</p> <p>17 A Yes.</p> <p>18 Q Okay. And then was there a room there that 19 was dedicated to the MRI machine?</p> <p>20 A Yes.</p> <p>21 Q And was there a room there dedicated to 22 maintenance of other equipment that was adjunct to</p>	40

1 the MRI machine? 2 A I believe you're probably referring to the 3 computer room? 4 Q I'm not referring to anything. I'm just 5 asking you the question. 6 A I don't know. 7 Q Were there other rooms there? 8 A There were, yes. 9 Q Okay. And what other rooms would there be 10 that would be adjunct to the MRI machine? 11 A There was a computer room. That was the 12 closest thing to it. 13 Q Okay. And what else? 14 A There was a room that actually had the 15 laser camera in it. 16 Q I'm sorry. Could you say that once more? 17 A room with a what in it? 18 A Laser camera. 19 Q What does the laser camera do? 20 A Allows you to print the images from the MRI 21 machine onto film. 22 Q Anything else?	41 1 Air Road location? 2 A Patient reports. 3 Q What's a patient report? 4 A Physician has to read the scan and produce 5 a report. 6 Q And what physician would read the scan and 7 produce a report? 8 A Any of the number of physicians at 9 University. 10 MR. SPERLING: Why don't you spell it out. 11 University of? 12 THE WITNESS: Maryland. 13 BY MR. SCHUMM: 14 Q And who would those be, their names? 15 A I'm trying to think who read our reports 16 from over there. There was a Greg Zoarski, I believe 17 Michael Rothman, Bernadette Stallmeyer, Dr. Resnik, 18 Dr. Mulligan. They're the ones that come off the top 19 of my head. 20 Q Okay. So how did it work that they did a 21 report? Patient comes in. Patient gets scanned. 22 Then what happens?
1 A There was a file room. There was a 2 kitchen. There was a marketing office. There was 3 changing rooms, bathroom, and one other office and 4 the reception area. 5 Q And who was the one other office for? 6 A Jeffrey used it, and I used it. 7 Q I'm sorry. Could you repeat that? 8 A Jeffrey Low and myself used it. 9 Q Okay. And what was kept in the file room? 10 A Patient files. 11 Q Any other records? 12 A Not to my knowledge. 13 Q Where were financial records of the 14 business kept? 15 A Probably most of them were in a file 16 cabinet. Yeah, they were in one of the file 17 cabinets. 18 Q So they were also not just patient files? 19 They were also financial records in the file cabinet? 20 A No, sir. A different file cabinet. 21 Q A different file cabinet. Okay. 22 Any other kind of records maintained at Bel	42 1 A Films are printed. They were transported 2 down to University of Maryland to be read. 3 Q And then what happened to them? 4 A They were returned back to us. 5 Q And they were kept in a file cabinet? 6 A A room. 7 Q How were they organized in that room? 8 A Alphabetically. 9 Q What were the usual operating hours of the 10 premises? 11 A About 8:30 to 5:00. 12 Q Now, if you experienced a problem with the 13 MRI machine, what was your procedure? 14 MR. SPERLING: Again at the Bel Air 15 location; is that correct? 16 MR. SCHUMM: At the Bel Air location, 17 right. Yeah. Whenever I ask, I'm asking about the 18 Bel Air location. 19 MR. SPERLING: Of Diagnostic Resource 20 Group? 21 MR. SCHUMM: The company, correct. 22 A If it wasn't something that -- normally you

<p>45</p> <p>1 would have to shut the machine down and bring it back 2 up, what we would call reboot, to see if it would 3 clear the error or the problem it was having. If 4 not, then we had to place a service call.</p> <p>5 Q Okay. And if you placed a service call, 6 what happened then?</p> <p>7 A We had to wait for a phone call to let us 8 know if and when somebody could get there.</p> <p>9 Q Did you keep records of service calls 10 placed?</p> <p>11 A Yes, sir.</p> <p>12 Q Tell me about those records. 13 How were they kept?</p> <p>14 A In a logbook.</p> <p>15 Q And what did you note in that logbook?</p> <p>16 A The type of problem and the date.</p> <p>17 Q Anything else?</p> <p>18 A No, sir.</p> <p>19 Q Any other information kept in the logbook?</p> <p>20 A No, sir.</p> <p>21 Q Was that the only logbook that was kept out 22 at the Bel Air Road location?</p>	<p>47</p> <p>1 that's where she lived.</p> <p>2 Q And did she keep a calendar of the 3 appointments?</p> <p>4 A I believe it was like a -- it was a regular 5 schedule, like times when the patients were due to 6 come in, what kind of scan, who the doctor was.</p> <p>7 Q Any other information in there?</p> <p>8 A No. Phone number, you know, of the 9 patient. That would be about it.</p> <p>10 Q And were the schedules or calendars, were 11 they kept in a book, or how were they compiled and --</p> <p>12 A They probably kept them in a binder.</p> <p>13 MR. SPERLING: Let Mr. Schumm finish his 14 question. You jumped the gun a little bit there.</p> <p>15 THE WITNESS: Sorry.</p> <p>16 BY MR. SCHUMM:</p> <p>17 Q And where was the binder kept?</p> <p>18 A At the front desk.</p> <p>19 Q Now, what records for Diagnostic Resource 20 Group were kept off site at another location?</p> <p>21 A None to my knowledge.</p> <p>22 Q Well, where were the financial records kept</p>
<p>46</p> <p>1 A I believe we -- I'm just guessing. From 2 what I can remember, we probably kept a patient log 3 just so we knew what scans were done on what 4 patient. That's pretty typical of most MR places.</p> <p>5 Q Any other logbook?</p> <p>6 A No, sir.</p> <p>7 Q And how were patients scheduled at the 8 location?</p> <p>9 A A referring physician would call and make 10 an appointment.</p> <p>11 Q Then what happened to that information from 12 the call from the referring physician?</p> <p>13 A I believe Mena wrote it on the schedule.</p> <p>14 Q Who's Mena?</p> <p>15 A She was our receptionist.</p> <p>16 Q How do you spell her name?</p> <p>17 A M-e-n-a.</p> <p>18 Q And what's her last name?</p> <p>19 A Damico.</p> <p>20 Q And do you know where she lives?</p> <p>21 A She used to live -- I think it was 22 Rosedale? I think she was in Rosedale. I think</p>	<p>48</p> <p>1 for Diagnostic Resource Group?</p> <p>2 A I believe they were right there at Bel Air 3 Road.</p> <p>4 Q Well, why would records be faxed back and 5 forth between Maryland Imaging and Bel Air Road 6 location?</p> <p>7 A What do you mean what kind of -- why would 8 records? Of what?</p> <p>9 Q Just various records. There's just other 10 documents.</p> <p>11 Do you know why records would be faxed back 12 and forth?</p> <p>13 A If an office had something at one and we 14 needed it at the other, they would fax it, but I 15 don't --</p> <p>16 Q What kind of records would those have been?</p> <p>17 A Could have been billing. Could have been 18 reports.</p> <p>19 Q Well, why would billing records --</p> <p>20 If all the financial records of DRG are 21 kept at Bel Air Road, why would they have to be sent 22 over to Maryland Imaging?</p>

1 **A Crystal, who did our billing, split the**
 2 **time between Bel Air Road and MD Imaging.**
 3 Q And was that an even split of time, like 50
 4 percent, 50 percent?
 5 **A About that I would imagine.**
 6 Q Anybody else work at Diagnostic Resource
 7 Group who split time between the locations?
 8 **A Debbie Rittmiller.**
 9 Q What did she do?
 10 **A Marketing.**
 11 Q And how long was she with Diagnostic
 12 Resource Group?
 13 **A About a year, year and a half I would**
 14 **imagine. I wouldn't recall the exact dates.**
 15 Q How long was she with Maryland Imaging
 16 approximately?
 17 **A About two years.**
 18 Q And what was her background?
 19 **A Debbie had done marketing for another**
 20 **company in the Baltimore area here.**
 21 Q And do you know where she can be reached or
 22 located at this time?

49

1 **MR. SPERLING:** Same objection. Same line
 2 of objection only to hearsay.
 3 **A It was -- I don't recall the company. It**
 4 **was the first open used to advertise with the**
 5 **Orioles. I don't recall. I think it was open -- I**
 6 **don't recall the company's name.**
 7 **BY MR. SCHUMM:**
 8 Q And what was her educational background?
 9 **A I don't recall.**
 10 Q You were her supervisor, right?
 11 **A Correct.**
 12 Q And she was doing marketing for you?
 13 **A Yes.**
 14 Q And you didn't know what her educational
 15 background was?
 16 **A At this time I don't recall what it is.**
 17 Q Did she have a college degree?
 18 **A I don't recall.**
 19 Q Do you recall anything about Ms.
 20 Rittmiller's job qualifications at all?
 21 **A At this time?**
 22 Q Yes.

50

1 **A No, I don't.**
 2 **MR. SPERLING:** For the record, the
 3 information on Ms. Rittmiller is contained in the
 4 answers to interrogatories, I seem to recall, with
 5 her new name, which I'm not even going to try to
 6 pronounce, and I think an updated address. It's like
 7 Zirzky or something like that.
 8 **BY MR. SCHUMM:**
 9 Q And what specifically would Ms. Rittmiller
 10 do?
 11 **A She was a marketer. She would go out and**
 12 **visit physicians.**
 13 Q Did she work for you?
 14 **A She worked for Diagnostic Resource Group.**
 15 Q Were you her supervisor?
 16 **A Yes.**
 17 Q And what was her background prior to coming
 18 to Diagnostic Resource Group?
 19 **MR. SPERLING:** Objection, hearsay. Go
 20 ahead and answer.
 21 **A She did marketing for another company.**
 22 Q What other company?

50

52

1 **A I don't recall.**
 2 Q Where would the records be of her job
 3 qualifications?
 4 **A I don't know where they are.**
 5 Q When patients came in, you said you had to
 6 obtain billing information from them.
 7 What do you mean by billing information?
 8 **A Who their insurance company was.**
 9 Q And what's the purpose of obtaining that
 10 information?
 11 **A So that it could be billed.**
 12 Q Okay. Tell me how the billing process
 13 worked.
 14 **A Bills were submitted to the insurance**
 15 **companies for MRIs.**
 16 Q Now, if you had a problem with a scan,
 17 would you send a bill to the insurance company?
 18 **A Depends on if it was a complete scan or if**
 19 **it wasn't.**
 20 Q Well, if you sent a bill, was it a complete
 21 scan?
 22 **A Yes.**

EXHIBIT N

MRI APPLICATIONS SITE REPORT

Submitted by
Gloria Sumler
April 28, 1998

Site Number: R-77

Customer Name: Diagnostic Resource Group

Address: 8817 Belair #106
Perry Hall, Md. 21236

Telephone: (410) 529-4444

Regional Sales Manager: Eric Lindsey

Full Line Sales Specialist: J.P. Marzullo

MR Modality Manager: Mike Ellis

Regional Service Manager: Bob Mc Aveny

Area Service Manager: John Hutton

Customer Engineer: Kent Stansbury

Doctors: Phillip Templeton

Technologists: Kim Stehman

Date of Visit: April 6-10, 1998

Time Spent on Site: 5 days

Date of First Paying Patient (new site only): No paying patient done.

Reason for Visit: New site start-up

SYSTEM: OPART: QD Head, Large & Small Body, Extremity, Neck with Extender, Shoulder, Small Belt, T-Spine. No camera on site.

SOFTWARE VERSION: 1.3 rev 4

Clinical Evaluation:

Clinical evaluation was completed all scans met or exceeds system specification except for the angio sequence. The 3D TOF COW scan would not reconstruct. This was reported to service. All scans were archived to service disk.

Optical disc and mouse pad given to site.

Applications Issues:

The site was down when I arrived on Monday. The TCM board had to be replaced and the system was ready Tuesday morning.

This has been an unusually site turn-over. The site was not clean or prepared for application. No patients were schedule and very few volunteers were available. The technologist had to leave the site every day from 11 a.m. to 2 p.m. to scan at another site. There was no camera available at the site.

However, the technologist has previous MR experience and learned the system very quickly. The site has elected to have only one week of application at this time and use the second week when more staff is hired.

000008

Item Covered:

1. Magnet/Table
2. Coils, coil's positioning
3. Intercom system
4. Computer room
5. System start up & shut down
6. Schedule, Acquire, Display, File and Utilities icons
7. Configuration default
8. Daily QA
9. Filter and reconstruction
10. Filming setup demonstrated (no camera available)
11. Protocol creation and Memory Storage
12. Archive, delete, and restore
13. MIP

Scans done:

1. Brain
2. Cervical Spine, Carotid
3. Lumbar Spine
4. Knee
5. Shoulder
6. Elbow
7. Abdomen

Image quality is very good. Dr. Templeton and Kim were pleased with all scans performed. Recommended protocols were stored in memory for scans not performed.

Action Items:

1. Stay in telephone contact with the site.
2. Advanced scanning technique will be covered on next visit.

Engineering Issues:

Jeff Lowe the site owner had several complaints

1. He felt the intercom system is unacceptable because the only way to communicate with the patient is through the headset. Sales and service are also aware of this complaint and they are looking into other options.
2. The swaying motion of the table.
3. The 3D TOF angio sequence would not recon.

060009

Action Items:

Service Issues:

Phil Varone and Kent Stansbury was on site during application training. I would like to thank them for their diligent work..

The system was down on two occasions during my visit. The TCM board had to be replaced on day one. Day four of training the magnet suffered an uncontrolled ramp down due to an area power outage. The system was back up the next morning..

Action Items:

None at this time.

Sales Issues:

J.P. Marzuloo stopped by the site during application.

Action Items:

Talk to Jeff Lowe about his concern about the intercom systems.

Revisit Needed?

Yes, week two of application training at the customer request.

Submitted By: Gloria J. Sumler

1	Deposition of PHILIP ANTHONY TEMPLETON, M.D., held at the law offices of: LEONARD J. SPERLING 1777 Reisterstown Road Commercentre West, Suite 212 Baltimore, Maryland 21208 (410) 653-0141 Pursuant to agreement, before Beatriz D. Fefel, Registered Professional Reporter and Notary Public of the State of Maryland.	2 CONTENTS EXAMINATION OF PHILIP A. TEMPLETON, M.D. PAGE: 3 By Mr. Schumm 5 4 By Mr. Sperling 69 5 By Mr. Schumm 83 EXHIBITS (Attached to the transcript.) 9 TEMPLETON DEPOSITION EXHIBITS: PAGES: 10 1 10/1/98 Delivery and Acceptance 11 Certificate; Attachment A to 12 Landlord/Mortgagee Waiver; 7/7/99 13 letter to McAveney from Low 9 14 2 "TOSHIBA" problem list 14 15 3 4/28/98 MRI Applications Site 16 Report 28 17 4 4/98 Imaging Center scanning log 28 18 19 20 21 22	4 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22

<p>17</p> <p>1 list, but --</p> <p>2 Q Okay.</p> <p>3 A -- what it would mean to me is the fact --</p> <p>4 MR. SPERLING: I'm just going to object if</p> <p>5 it's not based on some knowledge that he has.</p> <p>6 MR. SCHUMM: Okay. I can ask him anything I</p> <p>7 want; he either knows or he doesn't know.</p> <p>8 MR. SPERLING: Exactly. He's asking what</p> <p>9 you know or other source of information.</p> <p>10 MR. SCHUMM: Well, but if he has an</p> <p>11 understanding I'll ask him what his understanding is</p> <p>12 based on.</p> <p>13 MR. SPERLING: Or if he has an</p> <p>14 understanding.</p> <p>15 BY MR. SCHUMM:</p> <p>16 Q Go ahead.</p> <p>17 A Okay. My understanding would simply be that</p> <p>18 because the system needed a generator, there was a</p> <p>19 yearly cost associated with running that generator</p> <p>20 that was an incremental cost to the entire operation.</p> <p>21 Q Now, to your knowledge, were there other MRI</p> <p>22 systems that required generators?</p>	<p>19</p> <p>1 platform. So I think that probably delayed getting</p> <p>2 things started and had costs borne by someone. And</p> <p>3 then the additional issues, which may come later in</p> <p>4 this list, I'm not positive, but the generator itself,</p> <p>5 as I recall, was not hooked up by Toshiba when it was</p> <p>6 installed. So the first time with the system in</p> <p>7 operation power went out, the backup generator did not</p> <p>8 come on, and I think that was over a weekend, and the</p> <p>9 system died.</p> <p>10 Q I'm going to show you what's been Bates-</p> <p>11 stamped as Documents 8, 9 and 10, and it says MRI</p> <p>12 Applications Site Report.</p> <p>13 MR. SPERLING: Take a moment to go through</p> <p>14 it.</p> <p>15 Q Yeah, I was going to ask you to do that.</p> <p>16 You've seen that before, I think.</p> <p>17 A I'm sure I have (complying). Okay.</p> <p>18 Q Okay. Do you recall having a meeting out</p> <p>19 there in approximately April of 1998 with the various</p> <p>20 persons listed?</p> <p>21 A Well, there's a lot of people listed here,</p> <p>22 but I remember being there for actually just a brief</p>
<p>18</p> <p>1 A Well, I don't know the answer to that, to be</p> <p>2 quite honest.</p> <p>3 Q Okay. Had you or Jeffrey ever gone out to</p> <p>4 look at a Toshiba MRI system that was being purchased</p> <p>5 by Diagnostic Resource Group?</p> <p>6 A I don't know that Jeffrey and I ever went to</p> <p>7 look at an MRI system that I can recall, but I have --</p> <p>8 I did personally myself in the past go look at the</p> <p>9 OPART system at Toshiba headquarters.</p> <p>10 Q Okay. Had Jeffrey gone to see one of the</p> <p>11 OPART systems?</p> <p>12 A That I'm not sure.</p> <p>13 Q Okay. Did he ever say anything to you that</p> <p>14 he had or had not?</p> <p>15 A I don't remember. It was quite awhile ago.</p> <p>16 Q Yeah. Okay. So with respect to these first</p> <p>17 three items, to your knowledge, what damage did</p> <p>18 Diagnostic Resource Group suffer?</p> <p>19 A Well, again, not being totally specific from</p> <p>20 knowledge but general understanding, the first issue</p> <p>21 was that the platform had to be created, and it was a</p> <p>22 rather lengthy, as I recall, long and inclined</p>	<p>20</p> <p>1 period of time.</p> <p>2 Q Umh-humh.</p> <p>3 A And I remember Kim Stehman and I remember</p> <p>4 Gloria Sumler who was the applications person.</p> <p>5 Q Umh-humh.</p> <p>6 A And I'm really not sure who else was or</p> <p>7 wasn't there at the time.</p> <p>8 Q Okay. Was a gentleman named Mr. Kent</p> <p>9 Stansbury there?</p> <p>10 A He could have been. I think I met him at</p> <p>11 some point; I don't know if it was that day.</p> <p>12 Q And what was the purpose of the meeting?</p> <p>13 A They were doing applications and I just went</p> <p>14 out to see the system.</p> <p>15 Q And did you see the system operate?</p> <p>16 A Yes.</p> <p>17 Q And did it operate satisfactorily, as best</p> <p>18 you could tell?</p> <p>19 A As far as I recall.</p> <p>20 Q Okay. I'm going to show you what's been</p> <p>21 identified as Bates Nos. 607, and attached to it for</p> <p>22 some reason is Bates No. 479. But this was produced</p>

<p>21 1 to us by Diagnostic Resource Group as the records from 2 April of 1998, and you can see it has a fax line of 3 5/4/1998. Were you aware that patients were treated 4 immediately after the date that you had the meeting 5 with Ms. Sumler and so on?</p> <p>6 A As far as I know, I know they did some 7 patients, yes.</p> <p>8 Q Okay. And in the course of your 9 association, was the machine ever used on patients 10 when it wasn't operating properly?</p> <p>11 A When you say my association?</p> <p>12 Q Well, you have this sort of -- you're not 13 quite sure of your title --</p> <p>14 A Oh.</p> <p>15 Q -- in your connection with it, so I'm 16 calling it an association for lack of a better thing. 17 I could say, well, you were secretary of the company, 18 or whatever your position was.</p> <p>19 A Well, to try to answer that question as best 20 I can, I know there were times that the system was 21 being used on a patient and it failed, if that's what 22 you mean. And so as far as I know, those scans were</p>	<p>23 1 A -- they obviously would either have to stop 2 scanning the patient and try to reschedule, or call on 3 the service personnel to fix the problem.</p> <p>4 Q And to your knowledge, when calls were made 5 to service personnel, were responses given by the 6 service personnel to fix the problem and bring the 7 machine back up to operating order again?</p> <p>8 A As far as I know.</p> <p>9 Q Did you have any other business connections 10 with Mr. Low?</p> <p>11 A Beyond --</p> <p>12 Q Diagnostic Resource Group.</p> <p>13 A -- Diagnostic Resource Group? Yes.</p> <p>14 Q And what were those other associations?</p> <p>15 A Well, again, there were ventures that he did 16 that he considered me a partner in, and I was a 17 partner at least, I guess to the degree that I was 18 named a partner, if you will. It wasn't a financial 19 transaction or contribution or distribution or 20 anything of that nature. But, you know, I know there 21 was a surgery center in New Jersey that was attempted 22 to be put together and, to the best of my knowledge,</p>
<p>22 1 aborted.</p> <p>2 Q Okay. But to your knowledge, was a machine 3 being used for diagnostic purposes on patients when it 4 wasn't operating properly and those results were given 5 back to doctors?</p> <p>6 A Not that I know of.</p> <p>7 Q Okay. And what would you have done if that 8 was occurring?</p> <p>9 A Well, I suppose, in the sense if I -- I'm 10 not sure what you mean when you say not operating 11 properly. In other words, if it was producing 12 diagnostic scans, that's one thing; if it was not 13 producing diagnostic scans, that would be the other, 14 and that would probably be the extent of my 15 involvement. If it was a machine technical problem, I 16 probably wouldn't have necessarily known about it.</p> <p>17 Q And what was the normal procedure with 18 Diagnostic Resource Group if there was a technical 19 problem with the machine?</p> <p>20 A Well, as far as I would know, and I don't 21 particularly know the procedures --</p> <p>22 Q Okay.</p>	<p>24 1 not operational. And there was some imaging center in 2 New York. But, again, as best I know, someone bought 3 that, but it really had no direct involvement or 4 bearing with me in any financial or other way.</p> <p>5 Q Did you --</p> <p>6 A Very loosely.</p> <p>7 Q Did you receive any financial remuneration 8 from any of the businesses with which you were 9 associated with --</p> <p>10 A No.</p> <p>11 Q -- Mr. Low, for instance, serving as 12 secretary or whatever positions you might have had?</p> <p>13 A No.</p> <p>14 Q And did you ever receive a K-1 from him, or 15 any tax documents that you would have used in 16 compiling your own personal tax returns?</p> <p>17 A The only K-1 document that I recall that I 18 ever got was one from that surgery center in New 19 Jersey.</p> <p>20 Q Okay. And have you made an investment in 21 that surgery center?</p> <p>22 A No.</p>

<p>1 Q Let's see. Some papers in the file indicate 2 that you were a medical director associated with 3 Diagnostic Resource Group; does that ring a bell?</p> <p>4 A It's not impossible.</p> <p>5 Q Not impossible, okay. Got it.</p> <p>6 A The title of medical director, I guess, 7 means that the physician of record for the imaging 8 center. I wasn't definitely sure that I was the 9 medical director of that center; however, it's 10 certainly possible.</p> <p>11 Q Okay. And during this time from, let's say, 12 the beginning of 1998 through the end of 1999, which 13 seems to be sort of the relevant period of events of 14 operation, what was your career and what were you 15 doing?</p> <p>16 A I was the chairman of radiology at the 17 University of Maryland.</p> <p>18 Q And when you say at the University of 19 Maryland --</p> <p>20 MR. SCHUMM: Let's go off the record for a 21 second.</p> <p>22 (Discussion off the record.)</p>	<p>25</p> <p>1 when you're there, but . . .</p> <p>2 BY MR. SCHUMM:</p> <p>3 Q Okay. In connection with your association 4 with Diagnostic Resource Group, did you exercise any 5 authority in your role as a secretary or medical 6 director in terms of supervising persons or signing 7 contracts, and so on and so forth?</p> <p>8 A I would say outside of this document --</p> <p>9 MR. SPERLING: Templeton 1, marked as 1.</p> <p>10 A -- 1, I did not really directly supervise 11 personnel or sign other documents or do any other 12 managerial things, no.</p> <p>13 Q If I could direct your attention back to the 14 document I showed you a little earlier, the document 15 Bates-stamped 0008, which I guess --</p> <p>16 MR. SCHUMM: Why don't we mark that as 17 Templeton, what are we up to, 3?</p> <p>18 MR. SPERLING: Why don't we mark that 19 document as 3 and this document as 4.</p> <p>20 MR. SCHUMM: And we'll mark Document 21 00607 --</p> <p>22 MR. SPERLING: And 479.</p>
<p>1 BY MR. SCHUMM:</p> <p>2 Q When you refer to the University of 3 Maryland, you're referring to the University of 4 Maryland at Baltimore hospital complex located down on 5 Greene and Paca Streets in Baltimore?</p> <p>6 A Yes.</p> <p>7 MR. SPERLING: Actually, I think the name is 8 different. Isn't it University of Maryland Medical 9 System?</p> <p>10 THE WITNESS: Yeah, it's actually much more 11 complicated than that, because there's actually the 12 School of Medicine --</p> <p>13 MR. SPERLING: Right.</p> <p>14 THE WITNESS: -- and the Medical System.</p> <p>15 MR. SPERLING: And I know they kind of sold 16 it, or something like that, or it's no longer part of 17 the State, or something like that?</p> <p>18 THE WITNESS: No, it's a private, not-for- 19 profit. But, I mean, us as physicians there are both 20 in the role of being in the Medical School as 21 professors and being in the Medical System as clinical 22 chief of the department, so you wear like ten hats</p>	<p>26</p> <p>28</p> <p>1 MR. SCHUMM: -- and 479 as Exhibit 4. 2 (Deposition Exhibit Nos. 3 & 4 were marked 3 for identification and were attached to the 4 transcript.)</p> <p>5 BY MR. SCHUMM:</p> <p>6 Q I think my question was going to be, 7 redirecting your attention to what's been marked as 8 Templeton Deposition Exhibit No. 3, is that a fair 9 recollection of the events that you knew of that had 10 occurred around those dates?</p> <p>11 A Well, not exactly. I never saw this 12 document before.</p> <p>13 Q Right. No, no. I'm asking you if it's a 14 fair recollection of the events you knew of there. 15 Would you --</p> <p>16 A I honestly -- there are a lot of things in 17 this that I couldn't speak to at all.</p> <p>18 Q Okay.</p> <p>19 A My only recollection of that time is being 20 there for a brief while and perhaps seeing one or two 21 patients scanned.</p> <p>22 Q Okay.</p>
